

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Canceled).

2. (Currently Amended) A ~~composition~~ structure as claimed in claim ~~4~~ 5, wherein said adsorbent mineral fillers are selected from the ~~following group :~~ consisting of zeolite, activated charcoal, carbon nanotubes and mixtures thereof.

3. (Currently Amended) A ~~composition~~ structure as claimed in claim ~~4~~ 5, wherein the polymer is selected from ~~the group consisting of~~ polyolefins (~~PE, PP~~), polyamides, fluoropolymers, polymer alloys (~~PE-PA~~), and elastomers.

4. (Currently Amended) A ~~composition~~ structure as claimed in claim ~~4~~ 5, wherein the polymer material comprises permeability-reducing fillers ~~(8)~~ of micrometric type, ~~such as talc, metal particles for example,~~ or of a nanometric type, ~~such as clays for example.~~

5. (Currently Amended) A structure for containing hydrocarbons, ~~characterized in that it~~ comprising a wall is comprising a single layer of the ~~composition as claimed in claim 1~~ a controlled hydrocarbon permeability composition comprising a mixture of polymer material and of fillers, characterized in that fillers are mineral fillers and selected to adsorb and to trap an amount of hydrocarbons

discharged through said polymer so as to reduce the permeability of said composition to prevent hydrocarbons from passing completely through the wall.

6. (Currently Amended) A structure as claimed in claim 5, wherein at least one face of said wall is treated ~~(6)~~, for example by fluorination, to reduce the permeability.

7. (Currently Amended) A structure as claimed in claim 5, wherein said structure is made by extrusion, injection, blowing, rotational moulding or compression.

8. (Currently Amended) ~~Application of~~ A tank for a motor vehicle comprising the structure as claimed in claim 5 ~~to the manufacture of tanks for motor vehicles.~~

9. (Currently Amended) ~~Application of~~ A fuel line for a motor vehicle comprising the structure as claimed in claim 5.

10. (Currently Amended) A ~~composition~~ structure as claimed in claim 2, wherein the polymer is selected from : the group consisting of polyolefins ~~(PE, PP)~~, polyamides, fluoropolymers, polymer alloys ~~(PE-PA)~~, and elastomers.

11. (Currently Amended) A ~~composition~~ structure as claimed claim 2, wherein the polymer material comprises permeability-reducing fillers ~~(8)~~ of micrometric type, such as talc, metal particles for example, or of a nanometric type, such as clays for example.

12. (Currently Amended) A ~~composition~~ structure as claimed in claim 3, wherein the polymer material comprises permeability-reducing fillers (8) of micrometric type, ~~such as talc, metal particles for example,~~ or of a nanometric type, ~~such as clays for example.~~

13-20. (Canceled).

21. (New) A structure as claimed in claim 3, wherein the polymer comprises PE.

22. (New) A structure as claimed in claim 4, wherein the permeability-reducing fillers are selected from the group consisting of talc, metal particles and clays.

23. (New) A structure as claimed in claim 6, wherein the at least one face is treated by fluorination.
